

### 3) Read the passage and the graph and do the task.

People travel for various reasons like work, study and recreation. Some may travel to visit their friends and relatives. People talk about many issues that they have to face while travelling. The Department of Transportation had carried out a survey to find out the major issues faced while travelling in 2018. More than twenty thousand travelers from all 77 districts were interviewed during the survey and asked to mention a major issue faced while travelling. The following chart shows the findings of the survey.

Answer the following questions.

5×1 = 5 marks

- Who took part in this survey?
- Why was this survey carried out?
- The Department of Transportation should have addressed the issue 'price of travel' first. Why?
- What percentage of the people are worried about narrow highways?
- Which is the least serious issue according to the survey?
